The Control Environment in Grameenphone

In implementing and ensuring good governance in Grameenphone, the Board and the Management Team ensure the following:

a) Financial Reporting

Grameenphone has strong financial reporting procedures. Financial statements are prepared in accordance with International Financial Reporting Standards (IFRS), the Companies Act 1994, the Securities and Exchange Rules 2020, relevant guidelines issued by the Bangladesh Securities and Exchange Commission, the Financial Reporting Act 2015 and other applicable laws in Bangladesh. All the financial transactions are recorded in the Oracle Enterprise Resource Planning (ERP) systems. Financial reports extracted from the ERP are then used to produce the financial statements. These financial statements, once prepared, are reviewed initially by the Chief Accountant, CFO and CEO respectively and then by the Board Audit Committee quarterly. In each quarter/half-year/year, the external auditors review or audit the financial statements following relevant regulations/requirements. The annual audit is conducted by the external auditors, who are appointed by the Board of Directors followed by the Shareholders' approval in the Annual General Meeting. Details of Internal Control over Financial Reporting are described below.

b) Financial Reviews

The purpose of the financial review is to monitor the financial performance and position of the Company versus its annual financial targets. The CEO and CFO review financial results on a monthly basis to ensure Grameenphone is on track to deliver its annual financial targets or to identify corrective action, if and when required.
